The attached will give you a picture of our word processing holdings. Page 1 is Agency-wide; pages 2-6 cover each Directorate plus O/DCI. ~~of the 505 units, well over half (339) are IBM magnetic tape typewriters~~ --hardly state of the art. We are working with Logistics on an RFP for a standard family of word processors capable of eventual interconnection with our computer network. In the meantime, all our acquisitions will be leased so we can move to the standard when it is selected.

As D/OL has told you, there are 74 separate contracts for word processor leases. In addition, there are 26 contracts for maintenance. Standardization will simplify the contract situation.
